

## March Newsletter!

Parents and guardians we are more than halfway there woot woot! It has been wonderful to see how the kids have grown from August until now. We are crunching down and now more than ever we are drilling the importance of following directions, capitalizing nouns, minimizing math errors, correcting spelling and much more!

On March 1st the Autobiography will be assigned to 5th graders and the new 6th grade children and due the first week of May. This is a pretty extensive assignment so make sure students pace themselves and do not wait until the last minute to complete it as this will count for two grades! Feel free to email the school or come talk to Mrs Corteo and I of an example Autobiography for what is expected. The children who completed it last year will get a book report assigned instead and they will have the same amount of time to read the book (*The Giver*) and answer the questions! On March 7th we will be assigning a science (Human body parts) and students will get tested on it verbally and on paper (counting for two grades) at the end of the month March 29th.

Keep in mind that March 13th is Hot Dog day and the kindness club. On the 15th is wear ANY green day, last but not least spring break is the 18th to the 23rd! Any questions comments or concerns don't hesitate to send myself or Mrs Corteo an email or a message on the remind app!
